Awareness Events

MICHELLE KUPPER, EXECUTIVE DIRECTOR

The Hub has helped create a community where neighbors lift one another up and no one has to face mental health or recovery challenges alone. We believe human connection is the key to wellness, whether through a call with a caring professional, a support group, or resources in times of crisis. Our door is open to all, and I'm excited to invite you to see all that we've achieved together this year, and our vision for The Hub's future.

“ The Hub has been an invaluable resource and a true safety net for me during one of the most difficult years of my life.
